 Year 2 Science: Family Height Bar Graph

Dear Parents and Carers,

As part of our Science, we are exploring how humans grow and change over time. To help the children understand this, we would like to create a Family Height Bar Graph in class. We would love your help to make this activity extra special!

Please measure the height (in centimetres) of several family members of different ages e.g. your child/ren, siblings and cousins of various ages, adults - young and old!

With your, child, please then complete the attached data collection chart. An example is given below:

Name or Role	Age (years)	Height (cm)
Emily	7	122
Big Brother Jake	15	170
Mum	38	165
Dad	40	180
Grandma Pat	68	160

Please return all data collection sheets by **MONDAY 13th OCTOBER.**

Thank you for supporting our learning in a fun and meaningful way!
