

Promoting Positive Mental Health and Behaviours in School

Mission Statement

We promote a caring, supportive environment in which each individual is valued and respected. We have high expectations for all and aspire to achieve excellence.

Hampshire County Council Children's Services recognises that all children and young people need the foundation of positive mental health to benefit fully from all of the opportunities available to them.

Everyone experiences life challenges that can make us vulnerable. At times, anyone may need additional support to maintain or develop good mental health.

- 1 in 6 children and young people aged 1 - 15 years have a clinically recognisable mental disorder in any one year
- 1 in 4 adults will experience mental health difficulties; 1 in 3 of these difficulties can be traced back to childhood

The mental health of children and young people, adults in schools, parents and carers and the wider whole school community will impact on all areas of development, learning, achievement and experiences.

All children and young people have the right to be educated in an environment that supports and promotes positive mental health for everybody. All adults have the right to work in an environment that supports and promotes positive mental health for everybody.

Hampshire County Council Children's Services recognises these needs and rights. It is committed to raising awareness, increasing understanding and ensuring that all schools can and do make a difference by providing a place where all children and young people feel safe, secure and able to achieve and experience success and well-being.

All schools should offer a learning environment that promotes and enhances positive mental health. A consistent approach means that the school environment and school ethos all promote the mental health of the whole school community.

Healthy relationships underpin positive mental health and have a significant impact.

A mentally healthy environment has:

- A clear and agreed ethos and culture that accords value and respect to all
- A commitment to being responsive to children and young people's needs
- Clearly defined mental health links in school policies
- Clear guidelines for internal and external referrals
- Strong links with external agencies to provide access to support and information

- Louise Weston is the named lead in school for mental health promotion with the expectation that there is support and involvement and an ethos that 'mental health is everyone's business'

A mentally healthy environment is a place where children and young people:

- Have opportunities to participate in activities that encourage belonging
- Have opportunities to participate in decision making
- Have opportunities to celebrate academic and non-academic achievements
- Have their unique talents and abilities identified and developed
- Have opportunities to develop a sense of worth through taking responsibility for themselves and others
- Have opportunities to reflect
- Have access to appropriate support that meets their needs
- Have a right to be in an environment that is safe, clean, attractive and well cared for
- Are surrounded by adults who model positive and appropriate behaviours, interactions and ways of relating at all times

A mentally healthy environment is a place where staff:

- Have their individual needs recognised and responded to in a holistic way
- Have a range of strategies that support their mental health, eg a named person to speak to, signposting
- Have recognition of their work-life balance
- Have the mental health and well-being of the staff reviewed on at least a termly basis
- Feel valued and have opportunities to contribute to decision making processes
- Celebrate and recognise success
- Are able to carry out roles and responsibilities effectively
- Are provided with opportunities for CPD both personally and professionally
- Have their unique talents and skills recognised and opportunities are provided for development
- Have time to reflect
- Can access proactive strategies and systems to support them at times of emotional needs in both the short term and the long term

A mentally healthy environment is a place where parents/carers:

- Are recognised for their significant contribution to children and young people's mental health
- Are welcomed, included and work in partnership with schools and agencies
- Are provided with opportunities where they can ask for help when needed
- Are signposted to appropriate agencies for support
- Are clear about their roles and expectations of their responsibilities in working in partnership with schools
- Opinions are sought and valued and responded to
- Strengths and difficulties are recognised, acknowledged and challenged appropriately

A mentally healthy environment is a place where the whole school community:

- Is involved in promoting positive mental health

- Is valued for the role it plays in promoting positive mental health
- Contributes towards the ethos of the school

A healthy learning environment provides opportunities that promote positive mental health, through the standard curriculum and extended provision, eg Circle Time, PDL, play, nurture groups, differentiated learning activities, individual timetables, parents/carers groups, challenging stereotypes, etc.

The implementation of the policy for promoting positive mental health in schools:

- Will give schools a cohesive and co-ordinated approach to mental health
- Should underpin all policies and practices currently used in schools
- Will raise awareness as to how the whole school community can look after their own mental health and that of others
- Will help to de-stigmatise mental health
- Will support people and provide opportunities that enable everyone to reach their potential
- Will strengthen relationships and provide opportunities for different ways of working
- Will provide foundations for life-long learning
- Will promote and strengthen resilience throughout the whole school community and empower everyone to face life's challenges

This policy promotes positive mental health. It is a working document and has been developed in following Department for Education guidance 'Mental health and Behaviours in School' (June 2018).

This policy must be reviewed every two years.

Measuring Impact

This policy offers opportunities to measure the impact in a variety of ways:

- School policies
- The school's ethos
- Child/Staff/Volunteer well being
- Staff/Governor/class and school council meetings
- Feedback from the whole school community via questionnaires and verbally, formally and informally
- The number of external referrals to CAMHS (Child and Mental Health Service)
- Training and development internally, for example 'Safeguarding, Mental Health and Wellbeing' inset
- Induction and professional development of Staff and Volunteers

The promotion of positive mental health for children and young people is everyone's business
